Hari, who's profile I forgot to write down.

## Beforehand

Before the video he had already been talking about his name, saying "Alex, remember that name, because in a while from now, you'll see it in the newspaper when I do a mass murder" – parafrased, but quite literally what he said, so I started recording.

For some reason the demo doesn't show anything Gamer typed in chat when I play it back. Not sure if this is also the case for you. It's not too relevant to the story anyways, but I have paraphrased some of his stuff in there to make the stuff more comprehensible.

## Video 1:

Tick 4000:

PJ starts talking about Anders Breivik or something

Tick 6500:

Talks about which weapon he would use

17500:

Gamer brought up something called ball joints to mount your weapon on

PJ: "I don't know what a ball joint is, but I know I will roll a normal joint when I do these things"

19500:

PJ: "I just need my joint, my explosives, and hostages"

20500:

PJ: "no children hostages. I kill the children when I see them."

Gamer brings something up about how children hostages are worth more

PJ: "Then I will kill all the adult ones and half the children, and I'll still have half the children left as hostages."

Map switches.

Video 2:

17000:

PJ says something about how bad his fart smelled

She: "you are gross. Disgusting."

PJ: "Shut the fuck up, She, piece of shit, fucking female"

24000:

PJ starts about the weapons again, saying he can get them illegally very easily.

81000:

PJ: "who's n\*\*\*\*r? Put your hand up. Black pieces of shit put your hands up. I see 17 peoples put their hands up"

Hari: "don't say peoples" (I'd like to assume he means because it's a double plural).

PJ: "Oh right, sorry, 17 n\*\*\*\*rs"

Hari: "there we go, thank you"

93000:

PJ: "If there's any fucking muslims here, then type in the console kill, or press alt f4. I want to see how many muslims are here, because muslims are pieces of shit."

97267:

Hari: "So are we still waiting for the admins to come or?"

PJ: "Call the admin. Call my mom, I'll give you her number."
